### Strategy 1: Teachers

Build teacher capacity to consistently implement pedagogy that reflects high expectations for all students.

Provide explicit teaching and differentiated curriculum approaches to cater for individual learning needs.

Teachers will:
- have a clear understanding of students’ current ability
- understand how the student fits on the learning continuum for each subject
- utilise strategies to ensure that all students learn
- collaboratively reflect on and review student learning progress

| What (Actions) the activities and programs required to progress the key improvement strategies | How (Resources) the budget, equipment, IT, learning time, learning space | Who the individuals or teams responsible for implementation | When the date, week, month or term for completion | Achievement milestones the changes in practice or behaviours |
| Introduce common approaches to formative assessment through the “Assessment for Learning” program with a major focus on: Learning Intentions, Success Criteria and Student Self and Peer Assessment | - Differentiation Roadmap  
- PLT processes and the inquiry cycle to build to Level 2 ‘Data Use’ on the Differentiation Roadmap  
- Increased use of standardized 360 feedback to assist teachers to identify areas for improvements | - KLD leaders  
- CARLS  
- Principal Team  
- Teaching Staff  
- ES staff (student survey preparation and collation) | - Term 1: Student Surveys  
- Term 2: Peer Observations  
- Term 3: Review of Semester 1 student performance data  
- Term 4: Team/Leader Feedback | Teachers will routinely discuss learning intentions and success criteria with students.
